

*Visual Resources Collection*  
*College of Architecture and Urban Planning*

***Mission:***

**The Visual Resources Collection will provide the faculty of the College of Architecture and Urban Planning with images for teaching classes, and in support of their research, community outreach, and publications.**

*The Collection will*

- be responsive to the curricular and extra-curricular image requirements of the College faculty and staff
- acquire images legally, with respect to US copyright law and the Legal Counsel of the University.
- maintain these images in a suitable and secure environment.
- develop and maintain image management systems (databases, software, cross-reference, and circulation systems) to facilitate the use of images by faculty, staff, and students in the College
- operate in an efficient manner within the budget provided by the College.
- encourage the faculty of the College to use new pedagogical material and technology.
